DATIM Release 1.21.e was deployed as a maintenance release on May 9th, 2017.

DATIM v1.21.e allows for SIMS 3.0 data import and adds clarifying text to the HTS_TST – KP and KP_PREV disaggregates

SIMS:

1. **SIMS 3.0 data elements are now available**

   The data elements for SIMS 3.0 have been added to production and are now available for data import.

2. **Ability to import SIMS above site data at varying levels**

   SIMS above site assessments can now be submitted at any levels between the OU level and one level above the facility level.

MER Form Update:

3. **Clarifying text added to HTS_TST – Key Populations and KP_PREV disaggregates**

   There are text description updates to the following indicators (please note that the forms have not changed, only the text for the indicator has been updated):
