DATIM Release 1.22.a was deployed as a maintenance release on September 29, 2017.

DATIM v1.22.a updates MER data entry screens for FY17 Q4, as well as an update to DATIM analytics tools.

MER Updates:

1. **Data Entry forms for MER indicators have been updated for FY17 Q4.**

   The following indicators have been updated in preparation for FY17 Q4 data entry:

   - FPINT_SITE
   - HRH_PRE
   - HRH_CURR
   - HRH_STAFF
   - EMR_SITE
   - LAB_PTCQI

   The following indicator has been removed:

   - INVS_COMD

   Please see the attached document for specific details on what has changed.
