DATIM upgraded to version 1.16 on September 30, 2016, for FY16Q4 data entry (July 2016 - September 2016). The following system updates are listed below.

> Prior to ANY data entry (FY16Q4 Results and FY16 Targets), please CLEAR your cache FIRST. This is necessary only once. For instructions on how to clear your cache, please visit the <u>DATIM Support Page</u>

1. OU (Country) Level Datasets and Indicators

1.1. Dataset Name Change

USG associated datasets at the Country level have been **renamed**, but forms in which these datasets house have **NOT** changed.

Organisation Unit	Angola
Data Set	[Select data set]
Period	[Select data set]
	Host Country Results: Narratives (USG)
	Host Country Results: Operating Unit Level (USG)
	Host Country Targets: Narratives (USG)
	Host Country Targets: Operating Unit Level (USG)
	MER Results: Narratives (IM)
	MER Results: Operating Unit Level (IM)
	MER Targets: Narratives (IM)
	MER Targets: Operating Unit Level (IM)

- **Former:** MER Results: Operating Unit Level (USG)
    - o **NEW:** Host Country **Results**: Operating Unit Level (USG)
        - ▪ **FY16Q4** National (NAT) results for will be entered here for selected indicators
- **Former:** MER Targets: Operating Unit Level (USG)
    - o **NEW:** Host Country **Targets**: Operating Unit Level (USG)
        - ▪ **FY16** (October 2015 to September 2016) National (NAT) Targets for will be entered here for selected indicators
- **Former:** MER Results: Narratives (USG)
    - o **NEW:** Host Country **Results**: Narratives (USG)
        - ▪ PEPFAR (MER) and Host Country (NAT) narratives will be entered here
- **Former:** MER Targets: Narratives (USG)
    - o **NEW:** Host Country **Targets**: Narratives (USG)
        - ▪ Host Country (NAT) narratives will be entered here for FY16 Targets.

> ***NOTE:** PEPFAR narratives (non-NATs) for FY16 should already be entered*****

1.2. NAT Indicators

For screenshots of new and updated indicators, please reference the appendix section.

- MER Results: Operating Unit Level (USG)
    - o **NEW Indicators:** VMMC_TOTALCIRC_NAT, VL_SUPPRESSION_NAT, DIAGNOSED_NAT
    - o **Updated Indicators:** PMTCT_STAT_NAT, PMTCT_ARV_NAT, VMMC_CIRC_NAT, TX_CURR_NAT
    - o **Unchanged Indicator:** KP_MAT_NAT
- MER Targets: Operating Unit Level (USG)
    - o **NEW Indicator:** VMMC_TOTALCIRC_NAT
    - o **Updated Indicators:** PMTCT_STAT_NAT, PMTCT_ARV_NAT, VMMC_CIRC_NAT, TX_CURR_NAT

o **Unchanged Indicator:** KP_MAT_NAT

1.3. Changes to MER Results: Operating Unit Level (IM) Dataset

For screenshots of new and updated indicators, please reference the appendix section

- **NEW Indicator:** INVS_COMD
  - o Located within the newly created **INVS** program tab
- **Updated Indicators:** OVC_BERT (Numerator), OVC_BCERT (Denominator), OVC_HIVST (Numerator), OVC_HIVST (Denominator)
  - o Located within the **OVC Survey** program tab.
  - o The age bands have been changed from 15-18 to **15-17**

2. PSNU (COP Prioritization) Level Datasets and Indicators

Two new datasets have been **created** at each country's PSNU level for COP Prioritization (SUBNAT) data entry.

Organisation Unit	Bengo
Data Set	[Select data set] ▼
Period	[Select data set]
	Host Country Results: COP Prioritization SNU (USG)
	Host Country Targets: COP Prioritization SNU (USG)
	Planning Attributes: COP Prioritization SNU

- **NEW:** Host Country **Results**: COP Prioritization SNU (USG)
  - o **FY16Q4** Sub-national (SUBNAT) results will be entered here for selected indicators
- **NEW:** Host Country **Targets**: COP Prioritization SNU (USG)
  - o **FY16** (October 2015 to September 2016) Sub-national (SUBNAT) Targets will be entered here for selected indicators

2.1. SUBNAT Indicators

For screenshots of new indicators, please reference the appendix section. New SUBNAT indicators for **Results** AND **Targets** are:

- PMTCT_STAT_SUBNAT
- PMTCT_ARV_SUBNAT
- VMMC_CIRC_SUBNAT
- VMMC_TOTALCIRC_SUBNAT
- KP_MAT_SUBNAT
- TX_CURR_SUBNAT

3. Facility and Community Based Indicators

For FY16Q4 entry, modifications for two indicators have been made. For screenshots of new and updated indicators, please reference the appendix section

- **Updated Indicators:**
  - o **Facility Based ONLY:** TX_UNDETECT (Denominator)
    - ▪ To align with reporting guidance, disaggregates have been added to the TX_UNDETECT Denominator. As a result, TX_UNDETECT have now split into two separate headers: TX_UNDETECT (Numerator) and TX_UNDETECT (Denominator)
  - o **Facility AND Community Based** HRH_CURR
    - ▪ The indicator will now contain *Support* disaggregates (Salary, Stipend, Non-Monetary Only) for each of the existing categories

- The indicator now accepts decimals / integers. **If the personnel is not a full-time equivalent, a zero (0) must be entered prior to the decimal in order for the system to accept the value. For example, DATIM will not accept .5, the user must enter 0.5**

4. Additional Updates

Mutually exclusive disaggregates **will be** enforced during data entry. Users must enter in the Finer Age disaggregates, and may only enter Coarse Age Disaggregates with HQ permission. Once the user begins entering data for either the Finer or Coarse, the other will auto-lock preventing entry.

Required	Disaggregated by Age and Sex				
Female	<1	1-4	5-14	15-19	20+
	0	6	41	62	91
Male	<1	1-4	5-14	15-19	20+
	4	5	14	26	19
Sub-total	268				
Conditional	Disaggregated by Age and Sex (Aggregated) - USE WITH HQ PERMISSION ONLY				
Female	<1	1-14	15+		
Male	<1	1-14	15+		
Sub-total					

If users enter data while offline, the mutually exclusive feature will not be active. This means users will be able to enter data for both finer and coarse disaggregates. Once online, users will receive an "error" notification within the data entry boxes – the boxes will turn pink indicating that NONE of the data saved. **Data will not be saved until a set of the age disaggregates (either finer or coarse) is removed from entry.**

Required	Disaggregated by Age and Sex							
Female	<1	1-4	5-9	10-14	15-19	20-24	25-49	50+
Male	<1	1-4	5-9	10-14	15-19	20-24	25-49	50+
								6
Sub-total	6							
Conditional	Disaggregated by Age and Sex (Aggregated) - USE WITH HQ PERMISSION ONLY							
Female	<1	1-14	15+					
	6							
Male	<1	1-14	15+					

5. Appendix

This section includes screenshots of the **new** and **updated** indicators ONLY .

5.1. NAT and SUBNAT Indicators

- **PMTCT_STAT_NAT / SUBNAT** (Targets and Results)

Other: PMTCT_STAT_NAT		⊟ Collap
Required	Number of new ANC clients in reporting period	
Denominator		
Required	Number of pregnant women with known HIV status (includes those who already knew their HIV status prior to ANC)	
Numerator		
Required	**Numerator: Disaggregated by Status**	
Known positives		
New positives		
New Negatives		
Sub-total		

- **PMTCT_ARV_ NAT / SUBNAT** (Targets and Results)

Other: PMTCT_ARV_NAT		⊟ Collapse
Required	Estimated number of HIV infected pregnant women	
Denominator		
Auto-Calculate	Number of HIV-positive pregnant women who received ARVs to reduce risk of mother-to-child transmission during pregnancy. Numerator will auto-calculate from the Maternal Regimen Type Disaggregates	
Numerator		
Required	**Numerator: Disaggregated by Maternal Regimen Type**	
New on ART		
Already on ART		
Other (Option A, single-dose neviraphine, other ARVs)		

- **VMMC_CIRC_ NAT / SUBNAT** (Targets and Results)

Other: VMMC_CIRC_NAT			
Required	Number of males circumcised during the reporting period according to national standards		
Numerator			
Required	**Disaggregated by Age**		
	<15	15-29	30+
Sub-total			

- **VMMC_TOTALCIRC_ NAT / SUBNAT** (Targets and Results)

Other: VMMC_TOTALCIRC_NAT			
Optional	Total number of men ever circumcised		
Numerator			
Optional	**Disaggregated by Age**		
	<15	15-29	30+
Sub-total			

- **TX_CURR_ NAT / SUBNAT** (Targets and Results)

Other: TX_CURR_NAT		
Required	Number of adults and children currently receiving antiretroviral therapy (ART)	
Numerator		
Required	**Disaggregated by Age / Sex - If available, use the finest disaggregates**	
	<15	15+
Female		
Male		
Sub-total		
Conditional	**Disaggregated by Sex**	
Female		
Male		
Sub-total		

5.2. NAT Indicators ONLY

- **VL_SUPPRESSION_NAT** (Results ONLY)

Other: VL_SUPPRESSION_NAT		⊟ Collapse
Required	Number of adults and children receiving antiretroviral therapy in the reporting period with suppressed viral load (i.e. ≤1000 copies)	
Numerator		
Required	**Disaggregated by Age / Sex - If available, use the finest disaggregates**	
	<15 15+	
Female		
Male		
Conditional	**Disaggregated by Sex:**	
Female		
Male		
Required	**Disaggregated by Test Indication:**	
Targeted		
Routine		

- **DIAGNOSED_NAT** (Results ONLY)

Other: DIAGNOSED_NAT	
Required	Number of people living with HIV who know their status
Numerator	
Required	**Disaggregated by Age / Sex - If available, use the finest disaggregates**
	<15 15+
Female	
Male	
Conditional	**Disaggregated by Sex:**
Female	
Male	

5.3. Country Level IM Indicators

- **INVS_COMD**

Other: INVS_COMD		Collapse
Required	Required for IMs that purchased the commodities below. Number of HIV program related commodities purchased and amount spent in the last 12 months.	
Required	**Disaggregated by Commodity Type and Dollar Spent**	

	Number of Commodities Purchased	US Dollars Spent
HIV Test KITS		
HIV CD4 Reagents		
HIV Viral Load Reagents		
HIV ARVs		
Condoms		

- **OVC_BERT (Numerator) / OVC_BCERT (Denominator)**

Other: OVC_BCERT (Numerator)

Required	Number of active beneficiaries who have a birth certificate
Numerator	
Required	**Disaggregated by Age and Sex**

		<1	1-4	5-9	10-14	15-17
Female						
Male						
Sub-total						

Other: OVC_BCERT (Denominator)

Required	Number of active beneficiaries surveyed
Denominator	
Required	**Disaggregated by Age and Sex**

		<1	1-4	5-9	10-14	15-17
Female						
Male						
Sub-total						

- **OVC_HIVST (Numerator) / OVC_HIVST (Denominator)**

Other: OVC_HIVST (Numerator)   Collapse

Required	Number of active beneficiaries <15 years of age whose primary caregiver knows the child's HIV status
Numerator	
Required	**Disaggregated by Age and Sex**

		<1	1-4	5-9	10-14	15-17
Female						
Male						
Sub-total						

Other: OVC_HIVST (Denominator)

Required	Number of active beneficiaries surveyed
Denominator	
Required	**Disaggregated by Age and Sex**

		<1	1-4	5-9	10-14	15-17
Female						
Male						
Sub-total						

5.4. Site Level Indicators

- **TX_UNDETECT (Denominator)** (Facility Only)

DSD: TX_UNDETECT (Denominator)					
Required	Number of viral load tests performed from adults and children on ART within the current reporting period.				
Denominator					
Required	**Disaggregated by Age and Sex**				
Female	<1	1-4	5-14	15-19	20+
Male	<1	1-4	5-14	15-19	20+
Sub-total					
Required	**Disaggregated by Pregnancy/Breastfeeding**				
Pregnant					
Breastfeeding					
Sub-total					
Required	**Disaggregated by Test Indication:**				
Targeted					
Routine					
Sub-total					

- **HRH_CURR** (Facility and Community)

Other: HRH_CURR				⊟ Collapse
Auto-Calculate	Number of health worker full-time equivalents who are working on any HIV-related activities i.e. prevention, treatment and other HIV support and are receiving any type of support from PEPFAR at facility and community sites			
Numerator				
Required	**Disaggregated by Category and Support**			

	Support			
Category	Salary	Stipend	Non-Monetary Only	Sub-total
Clinical				
Management				
Clinical Support				
Social Services				
Lay				
Other
