DATIM Release 1.24.b was deployed as a maintenance release on May 15, 2018.

DATIM 1.24.b includes an update to several organizational hierarchies and an update to the log in failed message.

Update:

- **Updated the error message to be more informative when a user log in fails**

   The error message has now been updated to inform the user to contact their local DATIM user administrator if they have already attempted to change their password.

Org Hierarchy Updates:

- **Botswana**
- **Cote d'Ivoire**
- **Kenya**
