DATIM Release 1.24.e was deployed as a maintenance release on July 3, 2018.

DATIM 1.24.e includes an update to PEPFAR metadata.

Update:

- **Updated the metadata Publisher attribute from "pepfar.gov" to "PEPFAR" and added a contact email**

  For DATIM, updated the existing metadata Publisher attribute from "pepfar.gov" to "PEPFAR" as well as added a contact e-mail for the following metadata. Per 1.24.c release notes, the purpose of this attribute is to allow other systems to identify which metadata originated from PEPFAR as well as provide a contact e-mail.

  - Category option
  - Category option combination
  - Category option group
