DATIM Release 1.27.a was deployed as a maintenance release on January 10, 2019.

DATIM 1.27.a includes fixes to the MER code lists.

ATTENTION – The DATIM team is working on an update to the HTS_INDEX MER data entry form. Please do NOT enter ANY data for HTS_INDEX until the form has been updated. Any data currently entered for any of the HTS_INDEX data elements will be overwritten and deleted once the update has been made. We will notify you when it is available for data entry, which is expected within the next week. Note that this does NOT affect data entry for any other MER indicators – you may continue to enter data for all other indicators.

MER Updates

Please note that none of the resolved issues impact manual data entry for FY19 Q1.

- The following data elements now display in the **MER Results: Facility Based** and **MER Results: Facility Based DoD** code lists:
    - TB_STAT (D, DSD, Age Aggregated/Sex): New/Relapsed TB
    - TB_STAT (D, TA, Age Aggregated/Sex): New/Relapsed TB
    - TB_PREV (N, DSD, Age/TherapyType/NewExistingArt/HIVStatus): IPT
    - TB_PREV (N, TA, Age/TherapyType/NewExistingArt/HIVStatus): IPTThe MER Targets code lists were not displaying TB_ART Numerator, TX_PVLS Denominator, and TB_STAT Denominator. This has been resolved.
- The following data elements now display in the **MER Targets: Facility Based** and **MER Targets: Facility Based DoD** code lists:
    - TB_ART (N, DSD, Age Aggregated/Sex/HIVStatus) TARGET: Registered TB/HIV
    - TB_ART (N, TA, Age Aggregated/Sex/HIVStatus) TARGET: Registered TB/HIV
    - TX_PVLS (D, DSD, Age Aggregated/Sex/Indication/HIVStatus) TARGET v2: Viral Load Documented
    - TX_PVLS (D, TA, Age Aggregated/Sex/Indication/HIVStatus) TARGET v2: Viral Load Documented
    - TB_STAT (D, DSD, Age Aggregated/Sex) TARGET: New/Relapsed TB
    - TB_STAT (D, TA, Age Aggregated/Sex) TARGET: New/Relapsed TB
