

DATIM Release 1.25.a was deployed as a maintenance release on September 4, 2018.

DATIM 1.25.a includes an update to site administration privileges for Ministry of Health (MoH) alignment countries and a data change request for Democratic Republic of the Congo (DRC).

Update:

- **Site Administration Privileges to be Temporarily Revoked from MoH Alignment Countries**

Starting September 5th until October, 23 countries undergoing PEPFAR- MoH data alignment need their site administration privileges temporarily revoked. Two exceptions are for Kenya and Uganda.

- **Data Change Request for DRC**
