DATIM Release 1.25.e was deployed as a maintenance release on September 18, 2018.

DATIM 1.25.e includes a fix to resolve issues with specific Global users being unable to view data in the pivot tables.

Update:

- **Resolved issue where some Global users were unable to view data in the pivot tables**

    A select few users were incorrectly configured such that they were unable to view data in the pivot tables. This issue was resolved.
