

DATIM Release 1.27.g was deployed on March 26, 2019.

DATIM 1.27.g includes changes to DATIM metadata and organizational hierarchies.

Update:

- **TB_STAT Data Element Name Change:**

TB_STAT Numerator and Denominator data element names were changed. The category option was changed from "Age Aggregated" to "Age". The changes have been documented in the table below:
