

DATIM Release 1.27.j was deployed on May 07, 2019.

DATIM 1.27.j includes new reports in Events Data and updates in Approvals Dashboard.

**Update:**

- **Survey Surveillance Research Inventory Reports in Event Reports**

The following two reports are now available in Event Reports:

- **SaSR Annual Q4 Status Update**
- **SaSR\_Project Completion**

To view these reports, go to Event Reports > Favorites > Select Open and type the name of the report in the "Search for favorites" field. The country is defaulted to the user's OU. Users must pick the period before clicking on Update to retrieve the report. Screenshots of the reports are below:

The screenshot displays the DHIS 2 Event Reports interface. On the left, the 'Data' section is expanded, showing a list of available data items. The 'Selected data items' section includes:

- [DE] SaS- Current Stage (Remove)
- [DE] SaS- Project progress (Remove)
- [PA] Planned start date of data collection (Duplicate Remove)
- [PA] Expected end date of data collection (Duplicate Remove)
- [PA] TEI UID (Remove)

On the right, the 'SaSR\_Annual Q4 Status Update' report is displayed. The table has the following columns:

#	Event date	Organisation unit	Current Stage	Project progress	Planned start date of data collection	Expected end date of data collection	TEI UID	Planned Activity Type	USG Agency funding project	Name of the Agency point of contact for this population	Email of the Agency point of contact for this population	Name(s) of the Principal Investigator(s) or population Lead(s)	Email address(es) of Principal Investigator(s) or population Lead(s)
.													

At the bottom of the interface, it shows 'Page 1 of 1' and '1-0 of 0 cases'.
