

DATIM Release 1.28.h was deployed on September 24, 2019.

DATIM 1.28.h organizational hierarchy change and MER FY19Q4 Results updates

Update:

a) Organizational hierarchy update:

- Namibia requested to merge one duplicated site.

b) MER FY19Q4 Results updates:

1. KP_PREV validation Requirements changes:

Current validation is not able to provide the data insights for individual key populations. The new request is to update the validation rule to validate against their respective Key Population Type between both disaggregates and not just against the totals. This means validating each Key Population independently as follows:

- a) Sum of Disaggregated by Status / Key Population Type: (PWID) [“Known Positive” + “Newly tested and / or referred for testing” + “Declined testing and / or referral”] <= Disaggregated by Key Population Type: (PWID) [“Female” + “Male”]
- b) Sum of Disaggregated by Status / Key Population Type: (MSM) [“Known Positive” + “Newly tested and / or referred for testing” + “Declined testing and / or referral”] <= Disaggregated by Key Population Type: (MSM) [“Sex workers” + “Non Sex Workers”]
- c) Sum of Disaggregated by Status / Key Population Type: (Transgender People) “Known Positive” + “People Newly tested and / or referred for testing” + “Declined testing and / or referral” <= Disaggregated by Key Population Type: (Transgender) “Sex workers” + “Non Sex Workers”
- d) Sum of Disaggregated by Status / Key Population Type: (FSW) “Known Positive” + “Newly tested and / or referred for testing” + “Declined testing and / or referral” <= Disaggregated by Key Population Type: (FSW) “Sex workers”
- e) Sum of Disaggregated by Status / Key Population Type: (People in prison and other closed settings) “Known Positive” + “Newly tested and / or referred for testing” + “Declined testing and / or referral” <= Disaggregated by Key Population Type: (People in prison and other closed settings) “People in prison and other closed settings”

2. OVC_SERV OVC_SERV Verbiage Requirements changes:

- a) Update current verbiage "Graduated (Q2: Graduated in the past 6 months. At Q4: Report the number of children and parents/caregivers that exited in the past four quarters and did not return to active status or graduate)" to "Graduated (At Q2: Graduated in the past 6 months. At Q4: Report the number of children and parents/caregivers that graduated in the past four quarters.)"
- b) Update current verbiage "Disaggregated by Transferred or Exited. (At Q2: Report exits or transfers within the past 6 months. At Q4: Report exits or transfers within the past 12 months.)" to "Disaggregated by Transferred or Exited. (At Q2: Report exits or transfers within the past 6 months. At Q4: Report the number of exits or transfers in the past four quarters that did not return to active status or graduate.)"

3. HRH_CURR name update:

Two data elements names have been swapped among data entry boxes in the HRH_CURR indicator. The changes affect the data entry boxes in the Salaried Staff, Staff Receiving Stipends/Allowances, and Staff Receiving non-Monetary Benefits Cadre Categories. This will ensure data displays correctly in downstream systems

Cadre Category		Previous Data Element Name	New Data Element Name
Salaried Staff	# of salaried staff	HRH_CURR (N, NoApp, CadreOU/FinancialSupport/Expenditure): Health Workers	HRH_CURR (N, NoApp, CadreOU/FinanceSupport): Health Workers
	Total spent for all salaries	HRH_CURR (N, NoApp, CadreOU/FinanceSupport): Health Workers	HRH_CURR (N, NoApp, CadreOU/FinancialSupport/Expenditure): Health Workers
Staff Receiving Stipends/Allowances	# of staff receiving stipends/allowances	HRH_CURR (N, NoApp, CadreOU/FinancialSupport/Expenditure): Health Workers	HRH_CURR (N, NoApp, CadreOU/FinanceSupport): Health Workers
	Total spent for all stipends/allowances	HRH_CURR (N, NoApp, CadreOU/FinanceSupport): Health Workers	HRH_CURR (N, NoApp, CadreOU/FinancialSupport/Expenditure): Health Workers
Staff Receiving non-Monetary Benefits	# of staff receiving non-monetary benefits	HRH_CURR (N, NoApp, CadreOU/FinancialSupport/Expenditure): Health Workers	HRH_CURR (N, NoApp, CadreOU/FinanceSupport): Health Workers
	Total spent for all non-monetary support	HRH_CURR (N, NoApp, CadreOU/FinanceSupport): Health Workers	HRH_CURR (N, NoApp, CadreOU/FinancialSupport/Expenditure): Health Workers
