

DATIM Release 1.28.0 was deployed on December 17, 2019.

DATIM 1.28.0 includes organizational hierarchy and data changes

Update:

- **Organizational hierarchy update:**

- Mozambique requested to merge 19 duplicate sites.

- **Data cleanup:**

- South Africa requested the deletion of Results data for FY19 Q2 and Q3 tied to mechanisms 70310 & 70290.
 - CDC's HRH-STAFF indicator data was incorrectly entered during initial Q4 entry against mechanisms and July-September 2019. During Q4 cleaning, South Africa team provided cleaning data that addressed it: erroneous data was removed, and corrected data was imported in October 2018 - September 2019 period, without being split out into mechanisms.
 - Haiti requested the deletion of Results data for FY19 Q2 tied to mechanisms 18623 & 18267.
