DATIM Release 1.30.g was deployed on August 18, 2020.

DATIM 1.30.g includes an update to the User Administration App

Update:

- **Update User Administration App:**
  - The User Administration app has been updated to allow Global and Inter-Agency users to Enter Data for SaSR. Users with existing DATIM Global or Inter-Agency accounts may request that their User Admin edit their account to add Enter Data permissions for SaSR. New users requesting Global or Inter-Agency accounts may request Enter Data permissions for SaSR. Agency users continue to have SaSR View and Enter Data permissions. Agency, Inter-Agency, and Global users already have SaSR View Data permissions.
