

User Type	User Type Description
Partner	PEPFAR Implementing Partners, also referred to as IPs, are responsible for entering data like MER, ER, and HRH Inventories
Agency	Agencies (e.g. State, CDC, DOD) provide funding and work closely with Partners. This account type lets them review and approve data like MER, HRH, and ER.
Inter-Agency	Interagency coordinators are usually on the PEPFAR Coordinator's Office (PCO) team. This account type lets them review and approve MER data or enter data for designated MER USG indicators. They can also view HRH data.
MoH	Several Ministries of Health (MoH) have partnered with PEPFAR for Data Alignment Activities. This account provides access to MoH data sets in DATIM.
Global	Global Users are Inter-Agency and/or HQ level users responsible for reviewing all submitted data from across the global PEPFAR program.
Global Agency	Global Agency users are responsible for reviewing and approving data submitted by IPs related to Expenditure Reporting (ER) and HRH Inventories.
Global Partner	Global Partner users can examine data entered and submitted by a specific partner over all DATIM geography. This account cannot enter data.
