

DATIM Release 1.32.k was deployed on December 7th, 2021.

DATIM 1.32.k Includes data and organizational hierarchy changes.

Update:

- **Organizational hierarchy update:**
 - Kenya requested to merge one site

- **Data Cleanup:**
 - Completed data changes for Botswana (FY21Q2); removed cervical cancer values reported under data element CXCA_TX for mechanism 18163. The data were entered by error and have already been entered in the correct space
