

DATIM Release 1.32.r was deployed on February 1st, 2022.

DATIM 1.32.r Includes Voluntary Medical Male Circumcision (VMMC) Notifiable Adverse Event (NAE) changes.

Update:

- **VMMC NAE update:**
 - The VMMC NAE automatic email notifications have been updated to provide additional report details. They will also now send an email copy to the DATIM user that marks a report section as "complete"
